HAJDÚSZOBOSZLÓI
Pápai Vajna
Természetes ásványvíz

The **Aqua-Palace Roofed Spa** welcomes all family members through the year.

The exclusive spa pools of the bath world evoke different periods and locations: Tropical bath, ice cave bath, cinema bath, Pápai thermal bath, Ganges bath, Roman bath, sea bath, cave bath.

In the children's world section, baby and family pools, adorable animal figures, and slides welcome the toddlers. Their whole-day entertainment is guaranteed by the children's play room, and play house. The changing room, for nappies, for breastfeeding and children's relaxation room offers fullscale comfort to our guests. The water-palace offers a wide scale of wellness services: sauna, solarium, massage, private baths, relax rooms among other services.

For sports fans, we offer swimming pools, standing surf, squash and other fitness services.

Welcome to Hajdúszoboszló,
Europe's largest bath complex!

The pools spread over a 30-hectar park open from May 1 to September 30. The complex's 13 pools are highly popular among visitors, and offer a pleasant experience with a widescale selection for all ages.

The strand's greatest novelty is the „Mediterranean Shore” pool, which is Central Europe's largest swimming pool.

Mediterranean atmosphere is guaranteed with the sandy beach, pirate ships, the lighting tower and the rows of palm trees.

Aquapark is located in the strand's area, for entry, a separate ticket is required. For our slide parks, for visitors over 12 years of age we offer 9 types of giant slides (four-court racing slide, kamikaze, hydroslide, black hole, crazy stream, giant slide, Niagara, big hole and twister).

For children under 10 years of age, we offer mini slides, a water castle and streaming river. Children over 10 years of age, can try the giant slides only with their parent's statement of approval. Accompanying parents or family members receive discount-price armbands.

The **roofed thermal bath** is open all year from 7 hours to 19 hours. The composition of water is identical in all thermal pools, the only difference is the water temperature.

The brownish color of the water is due to the high Iodine and other mineral content, this is why thermal water is called „liquid gold”. The recommended bathing time for thermal pools is: 20 minutes. Bathing can be repeated daily, with individually controlled breaks.

In the thermal bath, complete therapy packages can be requested, besides medical supervision.

Based on our certified thermal waters, over 40 medicinal therapies have therapeutic effects on the following medical conditions:

chronic arthritis, degenerative arthrosis, inflammatory conditions of the spine, chronic neuropathy, neuralgia, paralytic conditions due to after effects of Heine-Medin disease, stroke, cerebral surgery or other condition, chronic muscle pain, therapy of sports- and other injuries, bone fracture, types of arteriosclerosis, chronic conditions of gynecology, sterility and chronic skin conditions.

Bathing is not recommended for the following medical conditions:

acute inflammation, malignant tumor, insufficient circulation, severe hypertension, tuberculosis, severe central nervous system condition, contagious diseases and pregnancy.
